deranged. Mrs. Simpson is the mother of seven children, the youngest of which is two and one-half years.

C. S. Livingstone, of Dixon, Colo., was in the city yesterday, and left on a visit to Missouri. He will return on Thursday and make his purchases, as he has started a new town six miles from Dixon, and intends to start several stores, including general merchandise, blacksmith, drug,

etc., etc. If Council Bluffs is to have a charity ball this year it will be well to have it a little earlier than it was held last year. It is about time to begin the organization so that all the details can be arranged with care and the work be more thorough than ever before.

On Friday evening last Mrs. W L. Bedison and daughters entertained a number of friends at progressive cuchre at their home. The first ladies' prize went to Miss Lena Bedison, the second to Miss Ralston, while Mr. Frank Hendricks and Mr. W. C. Morgan were awarded the gentlemen's prizes.

Des Moines' new base ball club has been fully organized, with W. R. Warfield, president; A. W. Wright, vice president; C. M. Sherman, secretary; A. H. Petit, treasurer. Six players have been signed and the balance will be shortly. To-day grading will commence on the new grounds and the fence will be completed this fall.

Last evening Theo. Lund entertained a few of his immediate friends at a goose supper. One of the guests read an original poem on "The's" late trip to Montgomery county, a copy of which was presented to the host. It was hand-somely engrossed and framed, and in a very neat and modest speech Mr. Lund

accepted the same. Ed LaMott, who for a short time tried to run the skating rink, was yesterday jailed on the charge of larceny. It seems LaMott got lodging in a Danish board-ing house on Broadway Saturday night, and yesterday morning a pair of shoes were missing. They were found in La Mott's possession, and he had offered them for sale.

To-day the new branch of the Chicago & Northwestern railway will be opened between Onawa and Lake City. A new time table has gone into effect by which all trains on the Northwestern branches will connect with the trains of the new This will be a great accommoda tion to the traveling public, as they will now be able to go up on the Sioux City train and make connections by which they can reach the towns on the Maple River branch of the Northwestern before noon, while under the old arrangement they were compelled to drive from Onawa or go to Carroll and then up, arriving at night.

Puzzling Queries for the Medical Examiners to Answer-A Novel Entertainment Being Prepared -A New Social Club.

The Medical Examiners.

The state board of medical examiners here met with many perplexing questions in trying to arrange rules and regulations under the new law regarding practicing physicians. One of the perplexities is in regard to those practicing as christian science healers. They use no medicine and are utterly opposed to all sorts of drugs. Neither do they use surgical instruments, and yet they treat all sorts of diseases, and take pay for the zame. One of the legal questions to be settled also, is whether it is necessary for a coroner, or one acting as a coroner, to make returns of deaths in all cases where no registered physician attended or was informed of the facts. The board has decided to have a meeting at Des Momes to-morrow, and some of these matters will be brought up then. The call for

the meeting is as follows: Iowa State Board of Medical Exam-Inems, Office of the Sechetary.—A meeting of the lowa state board of medical examiners will be held at the rooms of the state board of health in this city, beginning at 2 o'clock p. m., Tuesday, Nov. 9, prox., for the purpose of verifying diplomas, receiving and voting upon applications for certificates to practice medicine, examining applicants and attending to such other business as may come before it. All physicians who expect to continue the practice of medicine in the state after the 1st of January next, and all midwives who have begun practice since the 3d day of April, 1886, should not fall to file their applications before November 9th. It is not probable that another meeting will be held, and a failure to secure a certificate will be a great source of embarrassment as well as expense. Blanks and all needed information will be promptly and cheerfully furnished by us.

Utah and Don't Like Polygamy. Rev. Dwight Spencer, who has spent six years in Utah, delivered last evening in the Baptist church avery interesting discourse on Mormonism. He has evidently been a close observer, a careful student of humanity, as well as of books, and he handled his subject clearly and strongly. He pictured Mormonism as an evil which could not be laughed out of existence, nor would it die of its own unworthiness. It was strong and growing. He outlined some of its elements of strength, first of which was its perfect organization, which he ex-plained in detail. There were 28,000 officers of various grades in the Mormon church, thus placing one of these to every three adult members. The head of the church was believed to receive revelations direct from God, so that when he -spoke, either in person in the tabernacle or through his assistants, the people listened as to the voice of God. In Utah alone there were 250,000 people thus obeying implicitly the will of a human priesteraft. The history of the world had shown this to be most dangerous and menacing to to be most dangerous and menacing t

any form of government. The political power thus wielded was immense. As the head of the church directed, so the Mormons voted solidly. like so many machines, with no will or opinion of their own. Politicians, recog-nizing the power of the church, catered to it and made the situation more alarm

This power and organization was shown also in colonization. Rich valleys were being taken up in various places by Mormons sent out to possess the land and hold it for the church. If others come into such settlements they were soon induced to leave, for life could be so annoyed as to become unbearable. The church was thus reaching out and gaining new pos-

essions continually.

The power being exerted over woman, and through her, was also great. His tory showed that in all religions, whether true or false, women had always exerted the greatest influence. The priest craft saw this, and hence had a revelation. that of polygamy. Its purpose was to degrade woman, who was such a power, and made her subject to the will of the priest craft. The women were made to believe that in marriage and subjection to man was the only hope of salvation. The church taught that men became high in rank heaven, as they became the heads of large families. Women looked upon the men who married them as being their saviors; for unless married those women would be lost. Thus women were used and degraded most fearfully. The speaker named many instances of the de-

moralizing effect of polygamy.

The speaker spoke af the natural location of the true west, its size and its evident future, and then pictured the Mormon church as having located in the very center of this wonderful wealth of nature and stretching its feeders out in every direction, fortifying itself and growing stronger daily. Society was in its forma-tive condition, and hence the greater danger of polygamy getting so strong a hold as to make it most difficult to eradi-

As remedies for the growing evil, and As remedies for the growing evil, and preventives of the menacing dangers, he advocated legislation, christian teaching and free schools. Legislation could do much, but still so long as superstition and ignorance existed, polygamy, feeding on these would grow. Take superstition and ignorance away and polygamy would stave. It must be forced to face a christstarve. It must be forced to face a christian civilizatian, and it would then slink away in the darkness, abashed

A Return to School Days. The old-fashioned district school, to be given as an entertainment for the benefit of the Congregational church, is just now interesting a large number of ladies and gentlemen, who are arranging and rehearsing for its presentation. It promises to be the most novel and pleasing amateur entertainment ever given here. The school will be composed of those who attended such schools years ago, and these well-known citizens will faithfully these well-known citizens will faithfully portray to the public the school scenes of olden times. The participants will renew their youth, and again take their place with bench and book. The programme will present all the little details of an old-tashioned district school, including glimpses of the play-ground, recitations, discipline and lack of discipline, school songs and exercises. The school committee, composed of leading citizens, will

visit and pass upon the school, and a large audience is expected to pass their judgment also, the firm belief being that the verdict will be in loud praise of the enjoyable and unique entertainment. The date fixed upon is Friday evening. November 19, and the place the operahouse. Tickets will be thirty-five cents, and reserved seats fifty cents.

From the Omaha Bee:
Mr. J. H. Butler, of Hazel Dell. Pottawaitamie Co., Iowa, and his family of eleven persons, were all sick with malignant diphtheria. Every one of them has recovered by the use of Dr. Jefferis' Preventive and Cure for Diphtheria, without the aid of a physician.
C. H. Blakeslee, of No. 1410 Campbell street, Omaha, who recently lost a beautiful and interesting daughter, aged about 15 years, by diphtheria, under the treatment of one of the best physicians in Omaha, writes to Dr. Jefferis, of this city: "Your remedy for diphtheria came too late, our dear daughter was dving when it was received. I am satisfied that her life could have been sayed. Another one of our children who had the diphtheria, her throat was filled up with the puriful decration, we used your medicine and in twelve hours the disease was completely subdued. In the future we will keep your medicine at all times in our house. We feel that it saved the life of one of our children. We are very thankful to you, and only regret that we did not call on you sooner."

From the Council Bluffs Daily Globe:

M. A. McPitse, editor of the Cambria (Ebensburg, Pa.) Freeman, has been the personal friend of the editor of the Globe for more than twenty years, and is known wherever he is known as one of the best men isying His family was ravaged with diphtheria, and greatly distressed. Some of Dr. Jefferis Diphtheria Cure was used, and the lives of the rest of his children saved. Letters from Mr. McPike's children out of eight died from diphtheria before he had an opportunity of using Dr. Jefferis remedy.
